The Department of Mathematics and Statistics at Canisius College invites applications for a tenure-track position in Pure Mathematics at the assistant professor level to begin fall 2016. A PhD in Mathematics, as well as a strong commitment to excellence in teaching and research in a liberal arts setting, is essential. The department will consider all areas of Pure Mathematics, but some preference will be given to candidates whose research interests are in Combinatorics and/or Graph Theory.

Applications will only be accepted online through mathjobs.org and must include: (1) a cover letter, (2) a curriculum vitae, (3) a description of research, (4) a statement of teaching experience and philosophy, and (5) three letters of recommendation, at least one of which must address teaching. We will review applications as they are received and continue until the position is filled. To ensure full consideration, receipt of complete application materials is required on or before January 1, 2016.

The Department of Mathematics and Statistics at Canisius College has a fine record of teaching excellence and research scholarship. In the recent past the department has run highly innovative programs of undergraduate research, including an NSF sponsored REU on “Geometry and Physics on Graphs”. Our faculty members are active researchers who publish books and articles on a regular basis.

Members of the department will be conducting preliminary interviews for this position during the Joint Meetings in Seattle, January 6-9, 2016. Please indicate on your cover letter if you will be attending these meetings.

Canisius College, a Catholic and Jesuit university, is an independent, co-educational, medium-sized institution of higher education. Minority candidates are strongly encouraged to apply. Canisius College is an Equal Opportunity Employer.
