

Assistant Professor Positions Biology

Canisius College in Buffalo, New York is accepting applications for two tenure-track Assistant Professor positions in the Department of Biology, beginning fall 2015.

Microbiology: The candidate should be able to teach in our introductory freshmen biology (evolution and ecology) or sophomore biology (cell biology and biochemistry) courses, and one or more upper level courses and associated labs in general microbiology and their area of specialty. The ideal candidate will also teach one or more of the following: epidemiology, parasitology, virology, toxicology, and/or immunology. A research program studying microbiology from a biochemical, cellular, and/or molecular approach and involving undergraduates is expected.

Developmental Biology: The candidate should be able to teach in our sophomore cell biology and biochemistry courses, and one or more upper level courses and associated labs in developmental biology and their area of specialty, which may include evolution and development, or developmental genetics. The ideal candidate will also teach one or more of the following: evolution and development, developmental genetics, medical genetics, and/or toxicology. A research program studying developmental biology using molecular techniques and involving undergraduates is expected.

The candidates should complement, not duplicate, the existing expertise which includes: animal behavior/behavioral neuroscience, immunochemistry, endocrinology, cellular neurobiology, vertebrate ecology, cancer epigenetics, plant biochemistry, primatology, population genetics, and aquatic ecology/entomology. The development of a research program involving undergraduates is expected.

The successful candidate will be expected to seek external funding to support his/her scholarship. PhD is required, postdoctoral experience preferred.

Please send letter of application, vitae, transcripts, teaching philosophy, plan of proposed research, information for three references by November 1, 2014, to Dr. Susan Aronica at: hr.recruiter@canisius.edu (put MICROBIOLOGY or DEVELOPMENTAL BIO in the subject, PDF preferred) or mail to Human Resources, 2001 Main Street, Buffalo, NY 14208.

Canisius College, a Catholic and Jesuit university, has as its foundation the fundamental values of academic excellence, leadership, faith and social justice. Canisius is committed to educating and preparing men and women to become leaders in their professions and their communities, and in service to humanity. The college is an affirmative action/equal opportunity employer committed to recruiting, supporting, and fostering a diverse community of outstanding faculty, staff and students.
