Teaching Post Doctoral Fellow in Biology

The Biology Department of Canisius College announces a 2-year Teaching Post-Doctoral Fellow position in organismal biology (vertebrates) beginning fall 2016. The candidate will be expected to teach in our introductory biology course sequence (BIO111, 112), and develop an upper level course in their area of specialty. In addition, candidates are expected to develop a research program involving undergraduates. The candidate should complement the existing expertise of the department which includes: behavioral neuroscience/animal behavior, immunology, physiology, endocrinology, cellular neurobiology, developmental biology, microbiology, genetics/epigenetics, plant physiology/plant biochemistry, primatology, freshwater ecology and entomology. PhD is required.

Applications received by February 15, 2016 will receive full consideration. Please send letter of application including statement of teaching and research interests, curriculum vitae, transcripts and contact information for three recent references. Electronic application, in PDF format, is encouraged and should be sent to hr.recruiter@canisius.edu with BIO POST DOC in the subject line or mail to Human Resources, 2001 Main Street, Buffalo, NY 14208. Questions about the position can be directed to: Dr. Susan Aronica, Departmental Chair, Biology Department, aronicas@canisius.edu.

Canisius College, a Catholic and Jesuit university, has as its foundation the fundamental values of academic excellence, leadership, faith and social justice. Canisius is committed to educating and preparing men and women to become leaders in their professions and their communities, and in service to humanity. The college is an equal opportunity employer committed to recruiting, supporting, and fostering a diverse community of outstanding faculty, staff and students.
