## Chemistry Club To Hear Paper On "Spot Testing", March 1

---

The first meeting of the newly organized Canisius College Chemistry Club was held Wednesday evening, February 8. At this meeting Mr. Austin V. Signeur, moderator, outlined the objectives and purposes of the club, and pointed out that it was to be entirely in the hands of the students.

A Board of Directors was elected, including Ernest Decker, Blake Mago, Edward Wandel, Bruno Zwolinski and Robert Moyce. Last Monday the Board met and decided upon a tentative program for the remainder of the semester, including papers, demonstrations and exhibits by student members of the club. In line with this policy, the next meeting will be held Wednesday, March 1, in Room 24 at 8:00 P. M. Peter Jackson will give a paper on "Spot Testing". A demonstration of the subject of the talk will be given by members of the club.
