Will exams be administered in person by SAS?
No. All exams should be administered online by faculty. Faculty are responsible for administering exams and providing appropriate flexibility to students. Faculty and students are welcome to consult with SAS for any assistance.

How does extended time for exams work in an online format?
If a student has extra time for exams, the timed online exam or quiz must be extended per their accommodation. To streamline the accommodation process, all exam times can be extended by 2x. Faculty can follow these instructions regarding adjusting the time allotment for students taking online exams:

What if a student needs to register with SAS for accommodations?
Students can register for accommodations at any point, once we are provided with appropriate documentation of a disability. During the period of remote learning, students can still register for accommodations by sending documentation via email, and scheduling a phone or video appointment with staff. If you would like to schedule an appointment
regarding registering for accommodations please fill out the SAS Meeting Request form. Once the form is complete, a staff member will contact you to set up an appointment.
