

IPAD Apps that Promote Literacy in Spanish

1. **ABC SPANISH READING MAGIC–Lectura mágica**

Cost: Free

Description: Educational app, which provides practice in reading elementary Spanish, but also offers practice in the two prerequisite skills that are often overlooked: blending and segmentation of phonemes. Designed for young children learning to read Spanish as a native or foreign language, the app has three modes: Blending, Segmentation, and Reading.

2. **Ana Lomba's Spanish for Kids apps**

Cost: Free

Description: Lomba's fun and interactive apps focus on storytelling to teach language. The first app, The Little Red Hen/La gallina roja, is FREE.

3. **Little Pim**

Cost: \$2.99

Description: This app teaches basic vocabulary about eating and drinking, playing and sharing, sleeping and waking. It includes three interactive games and each game includes three levels of play, covering basic nouns (level one), verbs (level two), and short phrases (level three).

4. **Cl Niños**

Cost: Free

Description: Use an innovative technique to teach your children to read and to relate and link words.

5. **Lee paso a paso**

Cost: \$1.99

Description: Help children learn the basics to start reading Spanish. Go step by step learning the sounds of vowels, identifying syllables and their sounds to form words.

6. **iPingüinos!**

Cost: Free

Description: This app teaches letter recognition, phonics, reading and spelling.
