

Chemistry Head Issues Ruling

According to Father Brown, Chemistry Department head, junior and senior chemistry majors must attend all meetings of the alumni and undergraduate societies. All lectures heard will be discussed in Chemistry 50 (Introduction to Chemical Research). The compulsory attendance ruling affords the students an opportunity to meet the alumni chemists.

Mr. William B. Foley of the Research Advisory Service of the Liberty Bank, spoke at the October 6th meeting of the Alumni Chemistry Club. His subject was "Industry's Challenge to Research."
